

## **Automatic Exchange of Information (AEOI)**

The Automatic Exchange of Information (AEOI) is an international standard of the OECD that aims to increase the tax transparency of bank clients and their bank accounts.

Under the AEOI, the tax authorities of participating countries exchange data on bank accounts and securities custody accounts of taxable clients. Switzerland has also participated in the AEOI. Like all financial institutions in the participating countries, PBB is obliged to implement the AEOI requirements consistently.
